

QUAD

SQUARE-SHAPED & FLEXIBLE

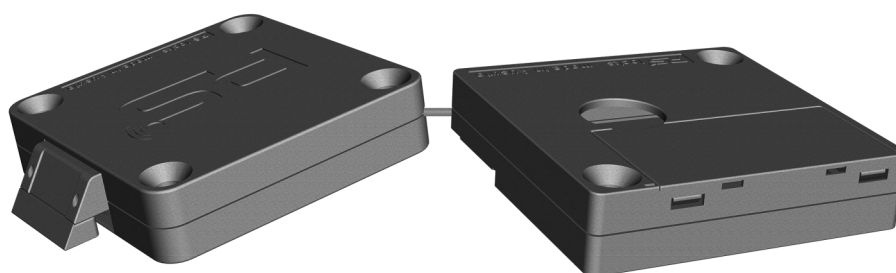

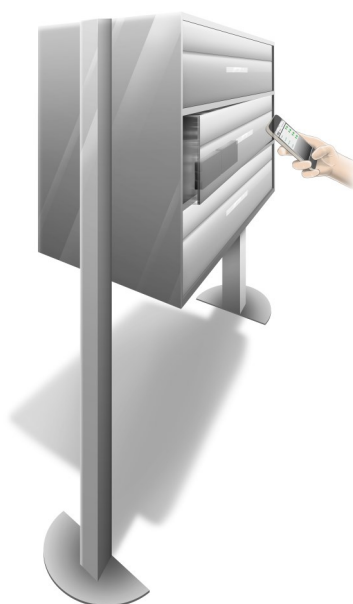

With a height of only 14 mm and remote electronics the QUAD lock can be used flexibly.

The electronics are connected with a cable and can be placed above, below and outside.

The quad as well as the electronics have a dimension of 60 x 60 x 14 mm each.

The QUAD is powered by 2 AAA batteries.

Range of temperature: 5-35°C.

QUAD – 125

RFID 125 kHz (EM4102/ EM4200) technology including:

- Electronic casing including the antenna 60 x 60 x 12 mm
- Locking unit in metal casing 60 x 60 x 12 mm
- 2x lithium batteries

Article number:	Quad-125
Customs tariff number:	83024200
Order quantity:	100

QUAD-13

RFID 13.56 MHz (ISO 14443A) technology including:

- Electronic casing including the antenna 60 x 60 x 12 mm
- Locking unit in metal casing 60 x 60 x 12 mm
- 2x lithium batteries

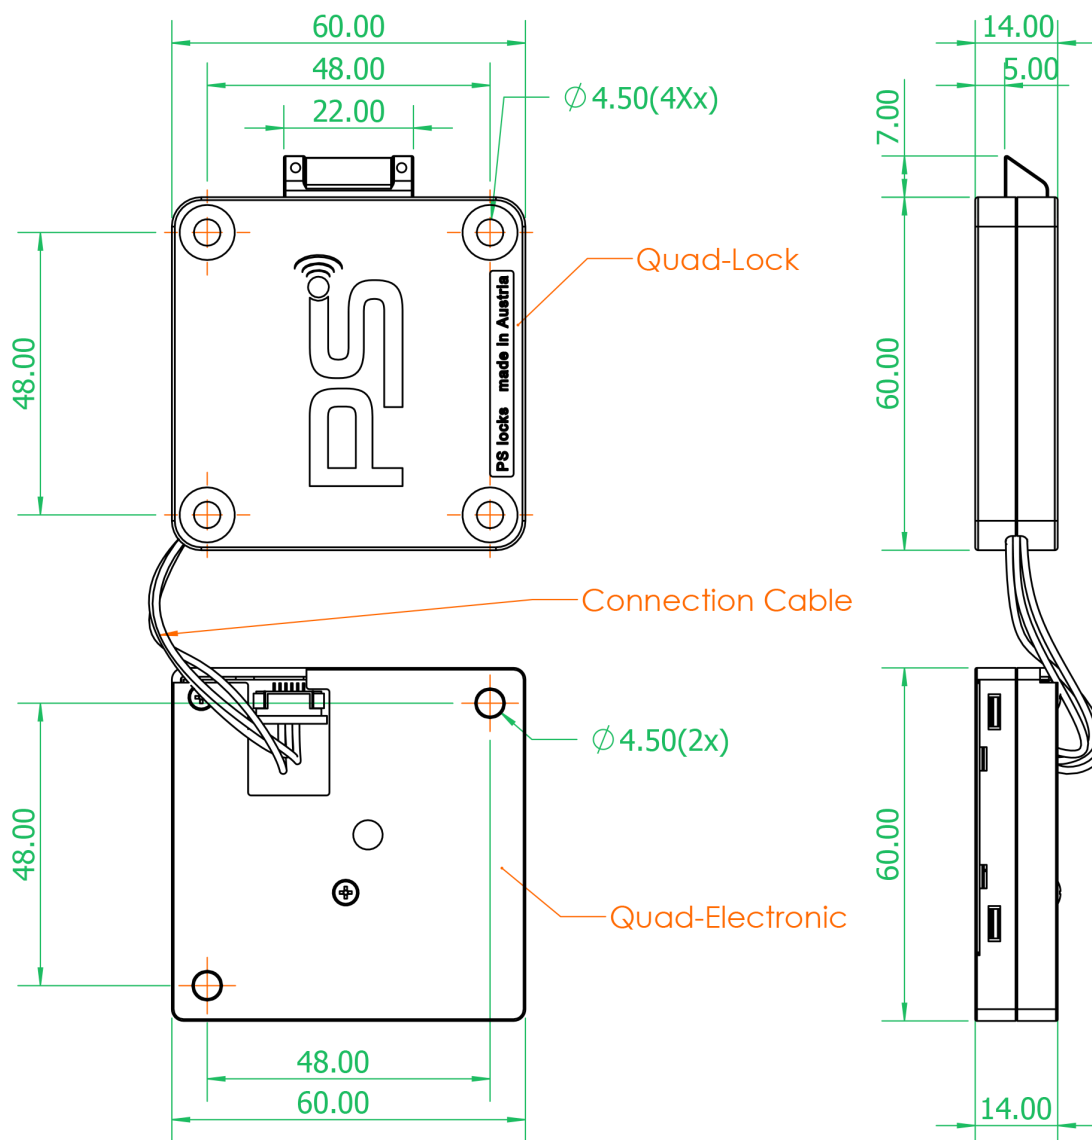

Article number:	QUAD-13
Customs tariff number:	83024200
Order quantity:	100

QUAD-BT

Bluetooth low energy technology including:

- Electronic casing 60 x 60 x 12 mm
- Locking unit in metal casing 60 x 60 x 12 mm
- 2x lithium batteries

Article number:	QUAD-BT
Customs tariff number:	83024200
Order quantity:	100

QUAD - 3-12V

The Quad 12V and the Quad 3V consist of only one of the two parts, the mechanical "Quad-Lock" part. The cable has an open end to connect it to the circuit.

Lock versions:

- 3V DC open (brown), 3V DC close (black), GND (blue)
- 1.5m cable
- 10-15V DC open (brown), 10-15 DC close (black), GND (blue)
- 1.5m cable

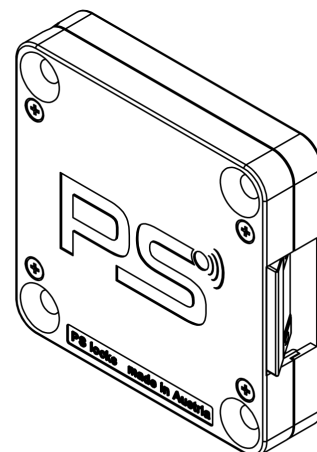

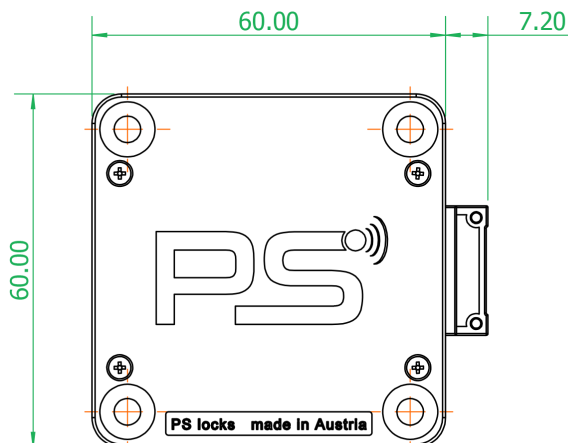

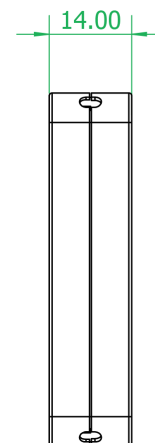

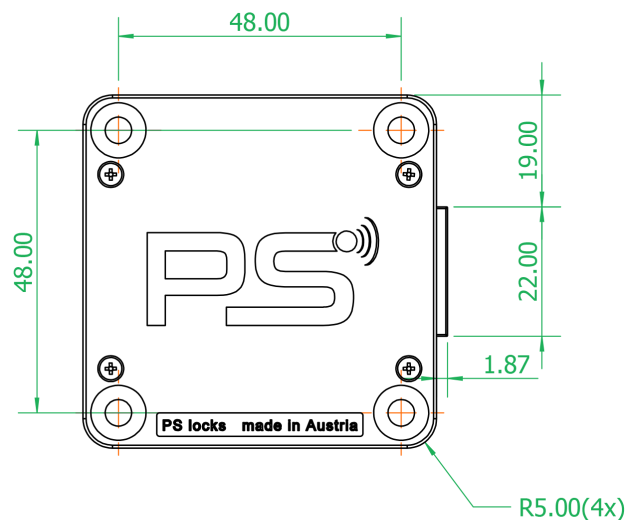

We can produce the locks with customized cables and plugs at request.

Current consumption at maximum load: 500 mA

Current consumption in normal condition: 100 mA

Article number:	QUAD-3V/QUAD-12V
Customs tariff number:	83024200
Order quantity:	200

SQUARE-SHAPED & FLEXIBLE

QUAD – LOCKING PART

In most applications, the bolt from the QUAD locks directly into the furnitures frame.

With this locking part, you can even use the QUAD on even surfaces. The integrated spring bolt opens the door automatically
