

This flat external antenna is equipped with a 1.5 m (5ft) connecting cable with a plug which can be plugged directly into the SOLO or PLUR lock with 125kHz.

The flat external antenna is used whenever the distance from the key is greater than 25 mm or if the lock is fixed onto a rear panel.

Can only be used with 125kHz (EM4102/EM4200) locks.
